

AMAY SRIVASTAVA

Noida, India • +91-7565989672 • amaysrivastav25@gmail.com • [Linkedin](#)

PROFESSIONAL SUMMARY

Entry-level SQL and Python developer with hands-on experience in relational database design, optimized query writing, and backend application development. Skilled in data analysis and building efficient solutions, with foundational knowledge of AWS and Google Cloud Platform. Strong problem-solving and debugging abilities with a collaborative approach to delivering scalable, cloud-based applications.

EDUCATION

Ajay Kumar Garg Engineering College

Nov 2022 - Jul 2026 (Expected)

- Bachelor of Technology- **Computer Science**

SKILLS

Data Analysis | Machine Learning | Frontend Web Development

Languages: Python, C, C++ | **Database:** MySQL, MongoDB | **Cloud Platforms:** AWS(Cloud Practitioner Level) – EC2, S3, IAM, RDS, VPC. Google Cloud Platform (Foundational Level) -Compute Engine, Cloud Storage, BigQuery, Cloud functions, IAM, Vertex AI, Databricks(SQL Analytics & BI).

Web: HTML, CSS, Node.js, Express.js | **Libraries:** NumPy, Pandas, Matplotlib, OpenCV | **Tools:** Git, MS Excel, MS Office Suite.

PROJECTS

Face Recognition based Attendance System ([Github Link](#))

- Developed an automated system that uses facial recognition technology to accurately identify and record attendance of students in a university.
- The system employs face detection algorithm KNN to locate and detect faces in real time.
- As the faculty hovers the camera over the classroom, the attendance for all the students present in the classroom gets marked as present and also gets updated in the university's learning management system simultaneously.
- **Tech stack:** Python- OpenCV, Face Recognition, MySQL Database, Flask Web Framework

Sensor Backend API ([Github Link](#))

- Developed a Node.js + Express backend service to ingest IoT sensor temperature data and persist it in MongoDB Atlas using Mongoose.
- Implemented RESTful APIs to store sensor readings and retrieve the latest reading per device, with proper validation and default timestamp handling.
- **Tech Stack:** tech stack includes Node.js, Express.js, MongoDB, REST APIs.

POSITION OF RESPONSIBILITY,

Member, Team Conatus

Aug 2023 – Present

- Contributed to the technical society focused on coding and innovation, participating in the development and execution of coding events, workshops, and hackathons.
- Collaborated with a team to foster a culture of learning, problem-solving, and technical excellence among college students.

Member, Team Renaissance

Mar 2023 – Present

- Led a prestigious socio-ethical managerial society, driving the planning and execution of all the major college events, while cultivating leadership, teamwork, and innovation across the campus
- Throughout the planning process, I maintained clear communication with all college officials, ensuring that everyone was on the same page and that the event was executed flawlessly.

RELEVANT COURSEWORK

Operating Systems, Object-Oriented Programming, Data Structures and Algorithms, Database Management Systems, Computer Networks, Machine Learning, Software Engineering, Web Technology

CERTIFICATIONS

- Udemy Certified - Complete Web Development
- Udemy Certified - Python for Data Science, Machine Learning, DL, NLP
- Databricks Certification – Completed “**Getting Started with SQL Analytics and BI**” course focused on SQL analytics and business intelligence.
- Completed Java assessment from Code ninjas, demonstrating proficiency in object-oriented programming and software development.
- Deloitte Certified - Cyber Job Simulation
- TCS Certified - Cybersecurity Analyst Job Simulation

ACHIEVEMENTS

- Participated in **QUEST'25**, a college-level technical hackathon focused on problem-solving and rapid solution development.
- Final-year project research paper submitted for publication to **IEEE**.
- Won the 2nd Position in Spin A Yarn, Mark Sense and 3rd Position in Big Ideas at **THOMSO'24, IIT Roorkee**.
- Won the BGMI Esports Tournament at **ANTARAGNI'25, IIT Kanpur**, demonstrating teamwork, strategic thinking, and leadership under competitive conditions.
